# 香港大學專業進修學院榮獲 ASIIN 機構認證標誌

## HKU SPACE was awarded ASIIN Institutional Accreditation Seal

香港大學專業進修學院繼在 2021 年 10 月進行的國際學術質素評審後，現榮獲德國工程、信息科學、自然科學和數學專業認證機構（ASIIN）頒授機構認證標誌。ASIIN 確認學院在機構、程序及文化方面，已達到良好教學及成功學習的要求，並全面符合歐洲高等教育區質素保證標準及指引（ESG — the Standards and Guidelines for Quality Assurance in the European Higher Education Area）。評審專家讚揚，「香港大學專業進修學院在機構領導層面尤其優秀，而且在程序處理上嚴謹縝密」。ASIIN 特向學院頒授機構認證標誌，進一步認可學院的學術質素。

有關認證以 ASIIN 制度標誌／機構評審／機構評核的準則作為依據，注重教學的質素發展（與 2015 年歐洲標準及指引一致），並考慮：(I) 學術質素的定義及管理；(II) 在高等教育機構所提供的教育課程上的應用；(III) 資源管理；以及 (IV) 與學術質素相關的透明度與文書紀錄。

評審報告顯示，學院在上述四大範疇均有卓越表現，而且在學術質素管理制度／管治、課程開拓和發展過程、守則和規例，以及透明度和文書紀錄方面尤其出色。

評審報告重點包括：

- 評審專家指出，眾多事例均反映學院擁有高效領導及主動的管理文化，有利於學院的未來發展。
- 評審專家讚揚學院具備全面的規劃過程，為進一步改進課程做好準備。
- 評審專家發現學院擁有一套完善的中央管理，處理與課程相關的守則及規例。
- 評審專家認為，學院非常重視文書檔案紀錄，並在過程中持續參考有關文書及透明度的外部法律要求。

香港大學專業進修學院院長李經文教授表示：「我很高興代表學院接受 ASIIN 官方認證。該認證反映學院的學術質素保證制度得到國際認可，而且報告內容十分正面，充分肯定我們對專業及持續教育以及終身學習的貢獻和承諾，亦證明學院的管治架構及學術質素保證制度穩健可靠。」

最後，評審小組總結認為，香港大學專業進修學院具備穩健根基和深遠潛力，可望在持續教育、終身學習和跨國教育的領域上發展成為領導國際的優質學府。評審小組提出了多項建議，以協助學院達成這個宏願，學院將詳細研究有關建議並於未來數月作適當跟進。

HKU SPACE was awarded the ASIIN institutional accreditation seal as a follow up to its International Quality Review (IQR) in October 2021. The German agency, the Accreditation Agency for Study Programmes in Engineering, Informatics, Natural Sciences and Mathematics (ASIIN) confirmed that HKU SPACE fulfils the institutional, procedural and cultural requirements for good teaching and successful learning as well as meeting the Standards and Guidelines for Quality Assurance in the European Higher European Area (ESG). The experts commend that "HKU SPACE's institutional leadership is particularly strong, and the institution is procedurally rigorous."

The accreditation was based on the Criteria for the ASIIN System Seal / Institutional Accreditation / Institutional Assessment. This set of criteria is designed for quality development in teaching and learning (in line with the European Standards and Guidelines 2015). The criteria refer to (I) the definition of quality and its management, (II) their application in the educational provisions the Higher Education Institution (HEI) is offering, (III) the management of its resources and (IV) quality related transparency and documentation.

The report showed that HKU SPACE scored highly over the entire range of the four sets of criteria. The strongest categories across the board were quality management systems/governance, the process for the creation and development of study programmes as well as rules and regulations and transparency and documentation.

Key findings are as follows:

- The experts see multiple evidence of an effective leadership and a management culture that is proactive and geared to the further development of the institution.
- The experts commend HKU SPACE on its comprehensive planning processes, which are geared to the further improvement of its study programmes.
- The experts find a strong centralised management in relation to rules and regulations pertaining to programmes.
- The experts identify a stringent emphasis on documentation at HKU SPACE. External legal requirements relevant for documentation and transparency are continuously taken into consideration in the respective processes.

Professor William K.M. Lee, the Director of the HKU SPACE, said, "I am very happy to receive this formal recognition from ASIIN which demonstrates that our quality assurance systems receive global recognition. This positive report shows our dedication and commitment to professional and continuing education and lifelong learning, and that our governance structure and quality assurance systems are sound."

Finally the Panel concluded the HKU SPACE has a strong base to build on and promising potential to further develop as a World Class Centre of Excellence in Continuing Education, Lifelong Learning and Transnational Education. It has made a number of recommendations to assist the School in this endeavour which will be followed up in the coming months.

The new Kowloon West Campus of HKU SPACE at 12/F NCB Innovation Centre, 888 Lai Chi Kok Road, Cheung Sha Wan, is now in operation. The School has various learning centres all over Hong Kong and Kowloon, and convenient transportation has always been the premise of site selection. The brand-new Kowloon West Campus is adjacent to the Lai Chi Kok MTR Station, providing the School's faculty, staff and students with the greatest convenience for their daily commuting.

The acquisition of the property is part of the School's long-term development strategies,

which is to expand and improve teaching venues and student facilities. The new Kowloon West Campus has an enrolment centre, 9 classrooms of different sizes, a wine room, 2 computer labs, 3 student common rooms, a teacher and student discussion room, a lecture room, and a sick room, etc.; some space in the building is designated as offices, convenient for faculty staff to handle daily teaching affairs.

# 為職場競爭力加分 微證書

## Acquiring Microcredentials to accelerate your career

香港大學專業進修學院欣然推出微證書，為有志進修人士提供更具彈性的學習空間和模式。

微證書是一股全球新趨勢——為進修人士提供與工作及專業相關的短期獨立課程或不同類型的短期興趣班，並向畢業同學頒發數碼證書或徽章。

微證書的特點是「可堆疊的」。進修人士可以積累學分以獲得證書或文憑資格。大部分微證書課程為期 30 小時，一般為 6 或 9 學分，少數課程可能需要較長時間。微證書學分一般有效期為 5 年，累積滿 30 學分可獲頒證書、滿 60 學分可獲頒文憑；並視乎微證書的科目性質而獲得普通學科證書 / 文憑或專業實踐證書 / 文憑，後者要求百分之七十五的學分必須在專業領域修讀，否則便將獲授普通學科證書 / 文憑學銜。香港大學專業進修學院亦要求，凡資歷架構課程所配對的學銜，當中百分之七十五的學分必須達致相關資歷架構級別。

此外，許多微證書皆屬於持續進修基金課程範圍，學生可向持續進修基金申請資助。

微證書乃根據不同課程主題發出。進修人士在某個課程主題內累積微證書，所獲學銜將會以括號列明其專修主題，例如：專業實踐證書（人工智能）或專業實踐文憑（職場心理學）。

微證書將於 2023 年推出，更多細節將於稍後在學院網站上公佈。

The School is pleased to introduce Microcredentials at HKU SPACE to better serve the learning community.

Microcredentials are a worldwide trend to offer learners short, standalone courses relevant to careers and professions or for general interest. A digital certificate or digital badge will be issued to successful learners.

Another feature is that the Microcredentials are "stackable". That is, that learners may accumulate them to earn a certificate or diploma. Most Microcredentials are short courses of about 30 contact hours, usually 6 or 9 credits, though a few are longer. These can be accumulated, are normally valid over a 5-year period and lead to a Certificate (30 credits) or Diploma (60 credits). These awards will carry the title of Certificate/Diploma in Professional Practice or Certificate/Diploma in General Studies depending on the nature of the Microcredentials. For the Professional Practice title, 75% of the credits must be in a professional area, otherwise the General Studies award will be made. Also, as per existing School practice, the QF Level of the award requires 75% of the credits at that QF Level.

In addition, students will find that many of the Microcredentials are CEF eligible so that application for financial support may be made to the Continuing Education Fund (CEF) of the HK Government.

They are also presented in number of themes and those who stack Microcredentials within a theme will also have that theme in brackets as parts of the award, e.g. Certificate in Professional Practice (Artificial Intelligence) or Diploma in Professional Practice (Workplace Psychology).

Microcredentials will be introduced in 2023 and more details will be announced in the School website later.

在 11 月 18 日的「正面處理情緒：都市人精神健康急救竅門」講座中，精神科專科醫生陳嘉璐為校友分析都市人的情緒問題，講解紓緩壓力和正面應對心理健康的方法，鼓勵大家培養正向情緒。

An estimated 1 in 7 people in Hong Kong experience a common mental disorder at any given time. Most of them may not realise or seek professional help. However, prevention and treatment are essential for mental health before it is too late.

The topics also covered how to deal with stress and emotional illness and stay positive. In addition, an eventful day trip to the Hong Kong Geopark North-East Wonder was arranged, allowing alumni to embrace nature and recharge their minds and bodies.

NFT 是近期火熱的數碼資產話題。香港數碼資產學會創辦人區偉志先生於 11 月 25 日的「掌握 NFT 趨勢 2023」講座中，為校友講解了不同數碼資產的特點，指導大家如何發掘有潛力的 NFT 項目，分析投資風險，以及預期 2023 年的發展趨勢。

「校友週」講座以現場參與及網上直播形式同步進行，反應熱烈，三個講座共吸引了接近 400 人次即時收看，截至 11 月底的累積觀看次數達 1,700 。

NFT has been one of the most topical issues in Hong Kong recently. Mr Alex Au Wai-chi, the Co-Founder of the Hong Kong Digital Asset Society, gave alumni the talk "NFT Trends 2023" on 25 November, explaining the characteristics of different digital assets, providing instructions on how to discover potential NFT projects, analysing the risks of digital asset investment and forecasting the trends for various digital assets in 2023.

The Alumni Week talks were held simultaneously in the form of on-site participation and online live broadcast, and received an enthusiastic response from alumni. The three talks attracted nearly 400 people to watch in real-time, and the cumulative number of views by the end of November reached 1,700.

## 親親大自然 Embracing Nature

「東北地質深度遊」是一趟親親大自然之旅。校友於 11 月 12 日當天在地質公園暢遊印洲塘海岸公園，認識荔枝窩紅樹林生態，走訪本地客家村落並了解客家文化，以及遊覽天后古廟、漫步於鴨洲地質徑等。參加者完成洗滌心靈之旅，人人盡興而歸。
