

## CPD Series for Health Professionals

### Certificate for Module (Health and Drug Management in Children and Adolescents)

證書(單元：兒童與青少年身心健康和用藥管理)  
Course Code : HS163A

#### Introduction

The programme intends to develop frontline health professionals' clinical competency on understanding and management of health and drug issues in children. The programme content aims to enhance the understanding of the management of the health issues, the interpretation of the health status, and the behavioral issues in children. The programme will also introduce the behavioral therapy and the knowledge in drug supplements and drug-drug interactions.

#### Learning Outcomes

On completion of the programme, students should be able to:

1. Integrate the knowledge of pediatric physiology in monitoring the health status of children;
2. Apply the knowledge of administration of common drugs in primary care and hospital settings; and
3. Examine the therapeutic effects on the health status of young patients, via the use of various clinical checklists.

#### Programme Content

1. Pediatric physiology and development (3 hours)
2. Management of ADHD, psychological and behavior problems in children and adolescents (6 hours)
3. Introduction to behavioral therapy (3 hours)
4. Common therapeutics for children (6 hours)
5. Drug Dependence and addictions in adolescents (3 hours)
6. Supplements, Natural Health Products and their interactions with drugs (3 hours)

#### Minimum Entry Requirements

Applicants should be registered nurses, medical social workers, occupational therapists, physiotherapists and other health care professionals; or those working in health care settings with an interest in Health and Drug Management in Children and Adolescents.

#### Programme Structure

1. Face-to-face lectures (x 24 hours)
2. Tutorials (x 6 hours)

#### Assessment

1. A minimum of 80% attendance
2. Individual Assignment (30%)
3. 2-hour written examination (70%)

**Speakers**

Experienced clinician, registered pharmacists and registered Advance Practice Nurse in relevant fields.

**Duration:** 12 weeks

**Delivery mode**

The programme will be delivered using a blended learning approach via SOUL online, face-to-face teaching and face-to-face tutorials.

**Award**

Upon successful completion of the programme, students will be awarded the Certificate for Module (Health and Drug Management in Children and Adolescents) within the HKU system through HKU SPACE.

**Programme Coordinators**

Dr Gemma Law, Senior Programme Director, HKU SPACE

Dr Edgar Liu, Senior Programme Director, HKU SPACE

**Medium of Instruction** English supplemented with Cantonese

**QF Level** 3

**Recommended CNE Points** 30

**Recommended CPE Points** Pending

**Venue** HKU SPACE Learning Centre

**Date/time** July 2019 from 6:30 to 9:30 pm

**Fee** HK\$5,500

**Application Fee** HK\$150 (Non-refundable)

## CPD Series for Health Professionals

### Certificate for Module (Health and Drug Management in Geriatrics)

證書(單元：長者身心健康和用藥管理)

Course Code : HS164A

#### Introduction

The programme intends to develop frontline health professionals' clinical competency on understanding and management of health and drug issues in elderly people. The programme content aims to enhance the understanding of the management of the health issues, the interpretation of the health status, therapeutics for chronic diseases, infectious diseases and cancer.
