

Higher Diploma in Nursing (An Enrolled Nurse to Registered Nurse Conversion Programme)

Course No. HS 34-137-00 / HS066A

護理學高級文憑（登記護士轉註冊護士課程）

Aim

The Programme aims to equip enrolled nurses with essential competencies for safe, effective and ethical practice so as to achieve the requirement of the Core-Competencies for Registered Nurses (General) of the Nursing Council of Hong Kong (NCHK). Graduates will be eligible to apply for registration with the NCHK as Registered Nurses (General) [RN(G)] in Hong Kong.

Academic Progression

Higher Diploma is the intermediate award of a degree programme. It is envisaged that graduates of Higher Diploma in Nursing will be admitted to a top-up degree programme in nursing locally (e.g. HKU) or internationally (e.g. Middlesex University). The graduates can also enroll in the Certificate / Diploma in Advanced Nursing Practice programmes offered by HKU SPACE.

Learning Outcomes

On completion of the programme, students should be able to:

1. Demonstrate a comprehensive knowledge of the subjects such as biological and medical sciences, communication, social and behavioural sciences as well as legal and ethical aspects in nursing practices;
2. Apply nursing theories and evidence-based nursing knowledge integrated with problem solving skills, cognitive skills and psycho-motor skills and therapeutic techniques to practice safely, legally, ethically and effectively;
3. Work efficiently in partnership with different individuals in society and apply knowledge and skills of education, communication and problem solving to practice;
4. Use management and leadership skills in practice by applying knowledge of management, leadership theories and health care;
5. Apply knowledge and skills in appraising research and utilizing research findings to improve nursing and health care practices;
6. Practice professional development by applying knowledge and skills for personal effectiveness and professional development into practice.
