✉ mscpacc@hkuspace.hku.hk

This MSc in Professional Accountancy has been developed by UCL's prestigious School of Management. UCL ranked 8th in the world's top universities in the 2022 QS World University Rankings. ACCA members and affiliates can apply their professional qualification as credit towards completing this degree.

This preparatory courses aim to provide tuition support to students of MSc in Professional Accountancy, University of London (UoL). The MSc programme provides students with an opportunity to develop and apply masters level knowledge, understanding and skills within accountancy and finance-related content.

R To apply for the Preparatory Course for MSc in Professional Accountancy, applicants must first register with UoL as students of this MSc programme and enrol in the relevant module(s).

\$ HK\$9,900 per module
Additional Costs may need to budget for:
- Course Fee for UoL: <https://london.ac.uk/courses/professional-accountancy#fees>
- Preparatory Costs: if the most recent ACCA pass was over 5 years ago, students will need to complete an online preparation course.

! There were formally two pathways to achieve the master's degree, with different entrance requirements. Pathway 1 is no longer available to new students. For Pathway 2, the final opportunity to register as a new student is January 2022.

Building on the success of the programme and taking into consideration student feedback and external reviews, a new version of the programme will be available to register on from April 2022. Full details of the new structure, revised academic content and assessment methods will be available in due course.

Students who register on this version of the programme must complete their programme and will not be able to transfer their registration to the new programme.

Executive Certificate in Audit Analytics

Programme Code: EP145A

Application Code: 1980-EP145A

☎ 2867 8409

✉ executive@hkuspace.hku.hk

The basic commercial landscape is rapidly shifting towards automated processes and data-backed decision making, and auditing is no different. In recent years, audit analytics has drawn great attention in the accounting and audit profession due to the increase in demand for enhancing audit quality by regulators, creditors, and investors; many audit firms and internal auditors have applied audit analytics to their audit processes.

In response to this trend, this programme aims to provide students with the basics of the application of analytics in the auditing process in current ubiquitous computer-based information systems and their application in organisations.
