Building Codes 101 for Architects
Programme Code: ARCH9077 **S**

☎ 3762 0071   ✉ sandra.ho@hkuspace.hku.hk

This course covers in detail all aspects of statutory control for the design, construction and completion of buildings in Hong Kong.

The principles, practices and application of the building codes, including the Buildings Ordinance, Building Regulations, Codes of Practices and the Practice Notes for Authorized Persons will be extensively discussed and explained.

Candidates for the Architects Registration Board / Hong Kong Institute of Architects Professional Assessment who received their professional education overseas and others interested in learning about local building codes are welcome.

Programme Code: HB021A

Application Code: 1970-HB021A
For details, please refer to the common information below.

Master of Science in Occupational Hygiene
Programme Code: HB010A

Application Code: 1970-HB010A
For details, please refer to the common information below.

The University of Greenwich, UK   NCR2

☎ 2508 8869   ✉ tommy.ng@hkuspace.hku.hk

These programmes are particularly designed for occupational hygiene, safety and health practitioners. In order to gain one of these masters degree awards, students must complete a total of six taught courses and one dissertation in their respective specialisation.

They are intended to provide knowledge in identifying workplace hazards and developing professional skills for effective decision making on appropriate means of control.

R Applicants are expected to possess a bachelor's degree in the physical science discipline awarded by a recognized university.

Applicants who are members of an appropriate professional body and have appropriate professional experience may also be considered on an individual basis.

All applicants will be expected to demonstrate a proficiency in English such as IELTS with a minimum average score of 6.0 or TOEFL with a minimum score of 550; applicants who do not satisfy the minimum English proficiency requirement may be required to attend an interview or take an English enhancement course. This requirement will not apply to applicants who hold a qualification studied in English at an appropriate level.

Postgraduate Certificate in Building Engineering
Programme Code: HB011A

Application Code: 1975-HB011A

📞 2508 8805   ✉ nicole.tsoi@hkuspace.hku.hk

The Postgraduate Certificate in Building Engineering is an approved top-up programme in meeting the academic requirements for Membership in the Building Discipline of the Hong Kong Institution of Engineers (HKIE)*.

The programme aims to equip students with necessary engineering knowledge and technical competencies to solve problems and make engineering decisions in the construction processes of complex building projects.

Notes: *It is the applicants responsibility to confirm with the relevant professional institution for his/her eligibility for application of the professional membership.

R Applicants should:
(1) (a) hold a bachelor's degree in the building discipline awarded by a recognized university; or
(b) have gained a pass in the Chartered Institute of Building (CIOB) Part II Examination.
AND
(2) provide evidence of English language proficiency if the degree or equivalent qualification is from an institution where the language of teaching and assessment is not English, such as:
i. an overall band of 6.0 or above with no subtests lower than 5.5 in the IELTS; or
ii. a score of 550 or above in the paper-based TOEFL, or a score of 213 or above in the computer-based TOEFL, or a score of 80 or above in the internet-based TOEFL; or
iii. HKALE Use of English at Grade E; or
iv. HKDSE Examination English Language at Level 3; or
v. Equivalent qualifications.
AND
(3) have at least two years of relevant work experience in the construction industry.

Applicants with other qualifications will be considered on individual merit.

$ For 2021/2022 course fee: HK$26,200
Application Fee: HK$200

BSC (Hons) Occupational Safety, Health and Environment
Programme Code: HB003A

The University of Greenwich, UK
Application Code: 1970-HB003A   NCR1

📞 2508 8869   ✉ tommy.ng@hkuspace.hku.hk

HKU SPACE in collaboration with the School of Design of The University of Greenwich, the United Kingdom, offers the programme of BSc (Hons) in Occupational Safety, Health and Environment by distance learning mode.

R Applicants shall:
a) (i) hold a degree or equivalent in an appropriate subject, for example construction, transport, logistics or healthcare; or
(ii) hold appropriate professional qualifications, for example the National Examination Board in Occupational Safety and Health (NEBOSH) Diploma, or registered safety officer recognized by the HKSAR, or equivalent, with professional experience in the occupational safety and health (OSH) field; and
b) provide evidence of English proficiency such as IELTS with a minimum score of 6.0 or TOEFL with a minimum score of 550, or equivalent. Applicants, who do not satisfy the minimum English proficiency requirement, may be required to attend an interview or take an English enhancement course.

Note:
1. Applicants are normally required to have at least 3 years of professional work experience, e.g. construction, transport, logistics or healthcare. Interviews may be held to determine a candidate's potential to enroll to this programme.
2. Applicants without appropriate health and safety experience and qualifications will be required to successfully complete the module "Introduction to Occupational Safety Practice" (30 credits), or equivalent, prior to commencing the programme.
3. Applicants will fulfil the English proficiency requirement if the degree is from an institution where English is used as the language of teaching and assessment.

✉ paula.lee@hkuspace.hku.hk / tommy.ng@hkuspace.hku.hk

Building Information Modelling (BIM) technology is an innovative tool to generate intelligent three-dimensional digital representation of a building from its inception to construction then completion and beyond. It allows for the Architectural Engineering and Construction (AEC) industry's stakeholders; developers, architects, engineers, consultants, contractors, and facility managers to simultaneously share, amend and access the building's physical and functional information on a building project.

This programme is on the pre-approved list of the Construction Innovation and Technology Fund (CITF)and is included in the list of reimbursable courses under the Continuing Education Fund.
